ABOUT KITTINTON

Kittinton is the metaverse project that wants to Compile Defi, Gamefi, and Metaverse into the Unique One by the inspiration of 8 Bit Pixel Art driven by the main character, Kit The Time Traveler Cat.

The project consists of main 3 components \$KITT , PFPs, and Dapp to create the Virtual Town "Kittinton" That's Playable, Defiable, and Ownerable in WEB 3.0 Space. The future of Crypto is already in your hands? The Time Traveler Cat will bring the greatness of NFT bright again in your hometown , KITTINTON?

LET'S 8 BIT VIBES EVERYDAYS!

KITT TOKEN

WHAT'S \$KITT TOKEN

\$KITT is an ERC20 Native Token that runs on an Ethereum Smart Contract. The token is used as the utility of the Kittinton Web 3.0 Application and brings the life cycle of the system running as well.

We believe in the Future of NFT and Metaverse. Kittinton wants to bring up the world of virtual assets shining again?

GENESIS NFT

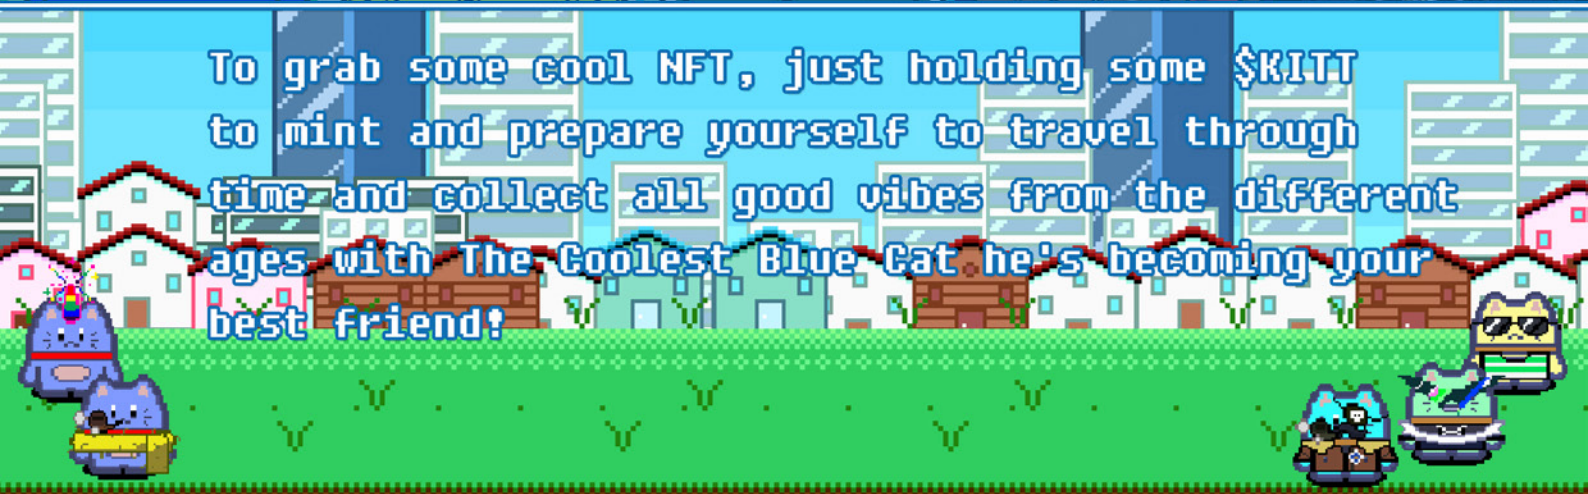

GENESIS NFT

Following the \$KITT token as the backbone, PFP is the iconic front end. It's the Genesis NFT that represents by hand-drawn stylized illustration of "Kit" The Time Traveler Cat!

To grab some cool NFT, just holding some \$KITT to mint and prepare yourself to travel through time and collect all good vibes from the different ages with The Coolest Blue Cat he's becoming your best friend!

Q1. What is Kittinton?

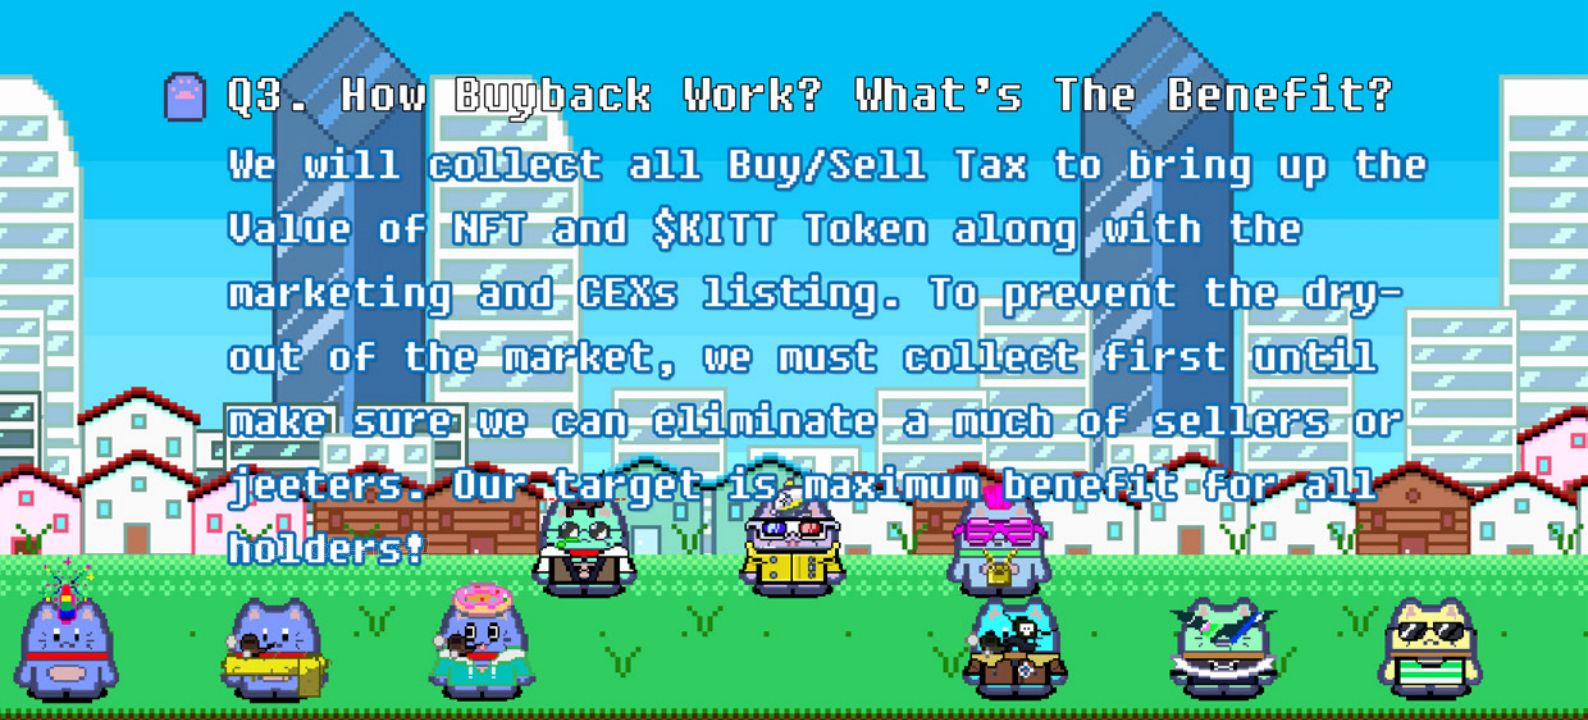

Kittinton is the WEB3.0 Virtual Town driven by ERC20 \$KITT token and NFTs. The project developed by Unreal Engine targeted to provide The Future of WEB3.0, Gaming, and NFTs! Playable Cafeteria at launch!

Q2. How to buy \$KITT?

You can buy on Pinksale when the pre-sale opens, then the token will list on Uniswap as fast as we can.

Q3. How Buyback Work? What's The Benefit?

We will collect all Buy/Sell Tax to bring up the Value of NFT and \$KITT Token along with the marketing and CEXs listing. To prevent the dry-out of the market, we must collect first until make sure we can eliminate a much of sellers or jeeters. Our target is maximum benefit for all holders!

Q4. Where's the secondary market?

We provide full support on Opensea, Blur, and all marketplaces that accept the Ethereum Smart Contract.

Q5. How do I mint the NFT?

Just hold some \$KITT to get free mint access. We will release more details soon.

Q6. What's Kittinton different from others?

Kittinton is the metaverse project that wants to Compile Defi, Gamefi, and Metaverse into a Unique One by the inspiration of 8-bit Pixel Art! The future of the development will exceed the utility of blockchain, Virtual assets, and The Proof Ownership become so real along with the future of Crypto Currency.
